b (MD) Read the text quickly and match the ideas to the paragraphs.

4 Read the text again. Were you right in exercise 3a? Which information is surprising?

5 What are your favourite foods? Which foods don't you like?

Food: Facts and myths

1 Fruit juice is good for you.

True and false. Natural fruit juice is good for you, but it can be bad for your teeth. So yes, have some orange juice with your breakfast or lunch, but don't drink any juice between meals. Try water instead. Up to eight glasses of water a day is good for you, and water hasn't got any calories!

2 _____

False. When you sleep you don't eat for a long time and in the morning it's important to start the day with a good breakfast. Without breakfast you often feel hungry later in the morning and start eating biscuits or chocolate. These sugary snacks are not a good idea. (If you want a healthy snack, try some nuts or melon.)

3 _____

True and false. People drink coffee when they are tired, but it isn't very healthy so don't have more than two cups a day and don't drink any coffee before you go to bed. Tea is generally good for you, but drink it with lemon and don't put any milk or sugar in it! Green tea is especially healthy.

4 _____

False. Vegetarian dishes often contain a lot of cheese and oil and these can be very fattening. It's important to eat some vegetables every day. (Doctors say five portions of vegetables and/or fruit). We need the vitamins and minerals, especially from green vegetables.

5 _____

False. Carrots have a lot of vitamin A and vitamin A is good for your eyes, but nobody can really see in the dark!

6 _____

False. There are good and bad diets. For example, real chocolate contains vitamins and minerals and can help you when you are tired. But it also has a lot of sugar, so don't eat it often. Eat a balanced diet with some rice, pasta, bread or noodles and lots of vegetables and fruit. You also need protein, from meat, grilled fish, cheese or nuts. And you need oil: olive oil and fish oil are particularly good.

An ordinary life ... an amazing idea

Tim Berners-Lee looks very ordinary. He's about fifty years old and has brown hair. He was born in England but now lives in Massachusetts in the USA. But in 1989 Tim had a very important idea. He invented the world wide web (www).

Tim went to school in London. Both his parents worked with computers so it isn't surprising that he loved computers from an early age. When he was eighteen, he left school and went to Oxford University where he studied physics. At Oxford, he became more and more interested in computers, and he made his first computer from an old television. He graduated in 1976 and got a job with a computer company in Dorset, England. In 1989, he went to work in Switzerland where he first had the idea of an international information network linked by computer. He decided to call it the world wide web, and he also decided to make his ideas free to everyone – that is why today we do not pay to use the Internet.

In 1994 he went to live in the United States where he now works. In 1995 he wrote an article in the New York Times where he said, 'The web is a universe of information and it is for everyone.' Today his idea of a web, where people from all over the world can exchange information, is real.

The Isle of Wight

Just two and a half hours' journey from London, the Isle of Wight is perfect for a weekend break, with its three hundred and eighty square kilometres of farmland, cliffs and beaches. You can stay in a B&B at Freshwater Bay and go for long walks along the cliff paths, and beaches. Or hire a bicycle and ride around the island, stopping at Carisbrooke Castle with its magnificent views over the island. If you want something more exciting, try a one-day paragliding course or go sailing: the Isle of Wight is a paradise for sailors. For children, there is a steam railway which starts from Ryde on the north coast. In the evenings you can relax after a good day's walking in one of the many excellent fish restaurants.

Canterbury and Leeds Castle

With its magnificent cathedral, many museums and old city walls, Canterbury is one of the most historic and beautiful cities in the country. You can stay at a hotel or a B&B and spend your day visiting the nine hundred-year-old cathedral and shopping. Or visit nearby Leeds Castle, which is situated on two islands in the middle of a small lake and is one of the loveliest castles in the country. It was first built in the ninth century and later became the home of King Henry VIII. Today it is a favourite with visitors, with beautiful parks to walk in, as well as gardens, a golf course, a museum, and, in summer, outdoor concerts.

Dublin

Dublin, the capital city of the Republic of Ireland, is situated on the east coast, on the River Liffey, and has an international airport with cheap, frequent flights from London. It's a lively and cosmopolitan city, and if you walk along the famous O'Connell Street you will find exciting shops, bars and restaurants. If you like sightseeing, you can also visit the famous Dublin Castle, Trinity College and Phoenix Park, one of the largest city parks in the world. In the evening you can listen to traditional Irish music in the bars and you can try the most popular drink in Ireland: Guinness, a black beer. Close by the city there are lovely beaches, and just over an hour away are the Wicklow Mountains for walks and beautiful views. And you will have no problems finding good accommodation: Dublin is famous for its excellent B&Bs.

Easy English?

- 1** English is an important global language, but that doesn't mean it's easy to learn. Many experts have tried to make English easier for students to learn – but they weren't always successful.
- 2** In 1930, Professor CK Ogden of Cambridge University invented Basic English. It had only 850 words (and just eighteen verbs) and Ogden said most people could learn it in just thirty hours. The problem was that people who learned Basic English could write and say simple messages, but they couldn't understand the answers in 'real' English! It was also impossible to explain a word if it wasn't in the Basic English word list. For example, if you wanted a water melon, you asked for 'a large green fruit with the form of an egg, which has a sweet red inside and a good taste'!
- 3** RE Zachrisson, a university professor in Sweden, decided that the biggest problem for learners of English was spelling, so he invented a language called

Anglic. Anglic was similar to English, but with much simpler spelling. 'Father' became 'faadher', 'new' became 'nue' and 'years' became 'yeerz'. Unfortunately for some students of English, Anglic never became popular.

- 4** Even easier is the language which ships' captains use: it's called 'Seaspeak'. Seaspeak uses a few simple phrases for every possible situation. In Seaspeak, for example you don't say, 'I'm sorry what did you say?' or 'I didn't understand, can you repeat that?' ... it's just, 'Say again.' No more grammar!
- 5** In the age of international communication through the Internet who knows? ... a new form of English might appear. A large number of the world's e-mails are in English and include examples of 'NetLingo' like OIC (Oh, I see) and TTYL (Talk to you later). In another fifty years, English as we know it might not exist ... we will probably all speak fluent Internetish!

Keeping in touch

- ▶ Present perfect
- ▶ Time phrases with the Present perfect and Past simple
- ▶ Reading: *Getting in touch through the ages*
- ▶ Vocabulary: Ways of communicating
- ▶ Real life: Telephoning
- ▶ Task: Analyse a questionnaire

Reading

1 **MD** Look at pictures a–c and read the information. When did these events happen? How long did it take for people to receive the news?

2 **a** Put these ways of communicating in order from the oldest (1) to the newest (7). Compare answers in pairs but do not read the text.

e-mail	the telephone
the typewriter	the postage stamp
text messages	the fax machine
pen and paper	

b **MD** Read the text and check.

3 Work in pairs. Ask and answer the questions.

- a How did people deliver letters in Ancient Egypt?
- b How much did the first stamp cost?
- c How often did they deliver letters in the 1840s?
- d How are the letters arranged on a modern computer keyboard?
- e When did the first fax machine appear?
- f Why was it difficult to walk with the first walkie-talkies?
- g When was the first text message?
- h How many e-mails do we send every day?

4 What do the pronouns in bold refer to?

- a **it** cost just one penny (paragraph 2)
- b nobody was very interested in **it** (paragraph 4)
- c **it** was so enormous that no one wanted **one** (paragraph 4)
- d after World War Two **they** became popular with police officers (paragraph 5)

5 Work in small groups. Discuss these questions.

- Which information in the text did you find most surprising?
- Do you think people send too many e-mails / text messages?
- Do you ever receive annoying e-mails / phone calls / letters?

500 years ago, it took five months for the news of Christopher Columbus' arrival in America to reach Queen Isabella in Spain.

GETTING IN

1 Nobody knows who wrote the first letter or when, but we know that 4,000 years ago in Ancient Egypt people carried letters by hand over hundreds of kilometres. Very few people could write, so there were special people, called scribes, who wrote letters for everyone else.

2 In those days you didn't need a stamp. The first stamp didn't appear until 1840 and it cost just one penny. Nowadays one of these original stamps costs €375. Letter writing was so popular in the 1840s that they delivered the post several times a day.

150 years ago, it took two weeks for news of President Lincoln's assassination in the USA to reach Europe.

In 1969, when Neil Armstrong first walked on the moon, it took just 1.3 seconds for his words to reach the Earth!

TOUCH THROUGH THE AGES

- 3** An American company – Remington and Sons – made the first typewriter in 1871. All the letters in the word 'typewriter' were on the top line of the keyboard so that salesmen could demonstrate the machine more easily. Amazingly, the letters are still in the same place on the modern computer keyboard!
- 4** In 1876, when Alexander Graham Bell demonstrated a fantastic new invention called the telephone, nobody was very interested in it. The first fax machine appeared at around the same time, but it was so enormous that no one wanted one – in fact fax machines didn't become popular for another hundred years.

- 5** Then there was the walkie-talkie, a small two-way radio first used by the US army in the 1930s. However, since they weighed around 13.5 kilos, the talking was perhaps easier than the walking! After World War Two they became popular with police officers. Before that they had to use whistles to call for help!
- 6** Nowadays of course we can send messages and pictures around the world in a few seconds using computers and mobile phones. It's hard to believe that e-mail was only invented in 1971, and the first text message was sent in 1992. Today we send over a billion text messages around the world every single day, and an incredible thirty-six billion e-mails!

- c I've had _____ in my life so far.
- d I haven't written _____ so far this year.

I've sent about ten e-mails (so far today).

I've owned three computers (in my life).

I haven't written any letters (this week).

We do not say exactly when these things happened with the Present perfect – it is not important.

- 2 We form the Present perfect with *have/has* + past participle.

a Regular past participle: verb + -ed

I've watched fifteen hours of TV this week.

b Irregular past participles: *made, sent, written, read*

He's read about eight books so far this year.

- 3 Complete the table.

+	I/you/we/they	' _____	sent	an e-mail.
	he/she	' _____

- e buy a book online
- f have a virus on your computer

I've never written a letter in English.

To someone else but not for me.

The trains and boats and planes

Carried you away, away from me.

We are so in love, and high above

We had a ring to wish upon. Wish

And dreams come true, but not for me

The trains and boats and planes

Carried you away, away from me.

You are from another part of the country,

You had to go back a while and then

You said you soon would come back again.

I wait here like I promised to.

I wait here but where are you?

Trains and boats and planes took you away.

But every time I watch them I pray

And if my prayers can cross the land

The trains and the boats and planes

Will bring you back, back here to me.

*I've **heard** about Jim but I **haven't met** him **before**.*

2 We cannot use the Present perfect with precise past time phrases like *yesterday*, *last month*, *at eight o'clock*, *ten minutes ago*, etc. With past time words like this, we use the Past simple.

Kemal Well, I usually have breakfast at home before I go to work. I always have tea, black tea, maybe two or three glasses. And I have cheese and eggs and tomatoes, and in Turkey we have fantastic bread so I usually have bread with butter and jam, and sometimes I have yoghurt, too.

Mi-Kyung I always have breakfast with my family. We usually have white rice, and we have Kim-chi. We cannot live without Kim-chi! Kim-chi is a traditional dish of mixed Korean vegetables. It's very hot and spicy.

Dimitry Well, for breakfast, when I have time, I have tea, usually, black tea with lemon and lots of sugar. Never with milk. Then I have bread and cold meat and some cucumber as well. And then I sometimes have a small cake or some biscuits to finish.

Sonia In Brazil, we have very good tropical fruit, guava, mango and things like that, and we always have fruit for our breakfast – also we have coffee, of course, everybody knows in Brazil we have very good coffee, and maybe bread and jam.

José I don't usually have breakfast. I don't have time because I go to work very early about seven o'clock in the morning, so I just have a cup of coffee for breakfast, in a café with my wife Anita. But I usually stop work for a snack at about eleven, half past eleven and go to a café near my office. I have another cup of coffee and a nice big piece of tortilla – Spanish omelette made with potatoes and eggs – it's really delicious.

I think it's a Carnival because the little boy has got a fantastic hat with yellow feathers. He looks great! And there's a young man on the right of the picture. He's got some drums ... three drums.

I can see a lot of food on the table on the left of the picture. There's some soup, yes a big pot of soup and there's some rice, a big plate of rice. There's also a plate of prawns. There are some knives, forks and spoons on the table.

Part 1

My grandparents were both Russian but they met in London. My grandmother's story was the most interesting. She was a servant girl in Russia and she worked for a rich family. During the First World War this rich family decided to move to London, and they took my grandmother and some of their other servants with them.

But when they got to London they decided they didn't need all these servants – they had too many – so they decided not to keep my grandmother, perhaps they didn't have enough money to keep her ... I don't know.

Part 2

So anyway, they decided to take my grandmother for a walk in the centre of London – Oxford Street or somewhere like that, and they said to her 'Wait here. We'll come back in a few minutes.' And then they just went away and never came back.

And she waited, and waited and waited. She was only sixteen years old, a poor servant girl from a farm in Russia ... she spoke no English at all, and they left her all alone in the centre of London – can you imagine?

Part 3

Anyway, she walked around for hours and hours trying to find someone who spoke Russian, and in the end she actually found some Russian people who took her to the Russian community in London. There was a big Russian community in Shoreditch in east London in those days.

And there she met my grandfather. He was forty-eight years old, and also Russian, and he decided he needed a wife to look after him. So he married my grandmother and they had two children, my father and my uncle. It's an amazing story isn't it?

- A I was born in 1978 in a place called Swansea, which is a town in the south of Wales. My mum and dad were very happy, I think. I was their first daughter.
- B I became interested in music when I was very, very young. I always loved music. When I was about three or four, I got a piano, not a real one, a toy piano, for Christmas, and I just loved it. I played with it for hours.
- C I went to school in Swansea. I was happy at school most of the time. Music was my favourite subject, of course!
- D When I was about twelve, I began to have piano lessons. My mum and dad got a teacher for me, and I learned how to play the piano. It was quite difficult, but I enjoyed it.
- E I went to university in Wales. I'm sure you know what I studied, it was Music and Drama, and I graduated in 1999.

 B: And they didn't use mobile phones, or listen to music on their MP3 players.
 A: Where?
 B: Here, look.
 A: Oh yeah, and they didn't read newspapers then.
 B: Are you sure?
 A: Yes, of course I am, and they didn't have clocks either.
 B: No, okay if you say so. Oh look and the man on the wall's got trainers. They didn't wear trainers five hundred years ago!
 A: No, you're right! What else?
 B: Well they didn't eat burgers did they?
 A: Oh no! And they didn't drink fizzy drinks, look that says cola.
 B: Oh yes. Okay, so how many have we got? The rollerblades, the scooter, the burger, the fizzy drink, the clock, the newspaper, that's six. The trainers, the mobile, the MP3 player, nine. What else? This is getting hard now.
 A: Mmm.
 B: Oh, look! The little boy's got a toy aeroplane. They didn't have aeroplanes in Romeo and Juliet's time!
 A: Oh, and the man on the scooter has got a baseball cap, look.
 B: Oh yes. Well they definitely didn't have baseball caps then, so that's eleven mistakes. What's the other one. I can't see anything else, can you?
 A: No, this is really hard.
 B: Yeah. Oh, I know. The man on the scooter's got sunglasses look, under his baseball cap.
 A: Oh yes, you're right, and they definitely didn't wear sunglasses in those days, so that's twelve mistakes!

- A: JRR Tolkien wrote books that both adults and children love. Did he have a happy childhood himself?
 B: No, he didn't actually – his father died when he was four and then his mother died when he was twelve and he went to live with a cousin who was a Catholic priest ... the family were very religious. Tolkien was a religious man all his life.
 A: And did he start writing at a young age?
 B: Well, actually, his first love was languages, especially ancient languages. In fact he became a professor of Anglo-Saxon – of Old English – at Oxford University.
 A: Oh, really?
 B: Yes, and as a kind of hobby he 'invented' languages.
 A: He invented new languages?
 B: Yes, and he wanted to create a fantasy world where people spoke his languages ... so that's why he wrote his first stories.
 A: So how did he become a famous writer?
 B: Well, he started to read his stories to his children and his friends' children, and they loved them, so he wrote more and more and more!
 A: So when did the three *Lord of the Rings* books first appear?
 B: In about 1954.

- A: But, it's not only children who love Tolkien's books.
 B: No, of course. In the 1960s the books were very popular with hippies. And they just continued to become more and more successful.
 A: So when did Tolkien die?
 B: He died in 1973, aged 81.
 A: Did he see the films of his books?
 B: No, no, no. They appeared a long time after his death!
 A: The films made billions of dollars. Did his family make a lot of money from the films?
 B: No, unfortunately! Tolkien sold the film rights for his books in 1969 for just £12,000.
 A: Oh no! So were his family unhappy about the films?
 B: No, not really. In fact his great-grandson Royd Tolkien acted in the last film. He had a small part.
 A: Wow! Well, thank you for telling us about JRR Tolkien and now ...

Andy

Our uniforms are interesting because they're very, very old. Imagine ... the hats we wear are more than 300 years old. People were smaller then, so the uniforms are really uncomfortable now, and very heavy. You want to move your head all the time, but you can't, of course. The trousers are also old, and they are made of a special kind of leather – also very uncomfortable, so we wear women's tights under them. We don't usually tell people about that, though!

Michelle

Generally, I really like my uniform. It's smart. I wear a white shirt, a black jacket, black trousers or skirt, a kind of black and white tie, and this lovely black and white hat! There's only one thing that I hate ... the shoes! Police shoes are really big and ugly. Yuk!

Cats started living with people as pets thousands of years ago, and now there are about 500 million domestic cats around the world. Cats are usually very good hunters and can catch mice and small birds – although they don't often eat them, if they can get normal cat food! In fact, they are very lazy animals: on average, they sleep for about sixteen hours a day. They also spend a lot of time keeping themselves clean by washing their fur with their tongues.

Male cats are called toms and female cats are called queens. Female cats are pregnant for about nine weeks, and usually have between two and five kittens. There are over one hundred breeds of cat, and even a hairless cat called the sphinx cat!

Recording 4

People say that a dog is a man's best friend. People and dogs first started living together about ten thousand years ago. Now there are fifty-three million dogs just in the USA. The Americans spend over two billion dollars on dog food every year – four times what they spend on baby food! Altogether there are about a hundred and fifty breeds of dog. Many dogs work for humans, doing jobs such as helping the blind, helping the police and customs officers to find drugs, and even racing! Greyhound racing is popular in many countries. The fastest greyhounds can run as fast as sixty-five kilometres per hour. Perhaps the most famous working dog was Rin Tin Tin, who died in 1932. He earned his money by making films. He made fifty films and earned about forty-four thousand dollars for each one!

Sharif This weekend? Nothing special. On Saturday afternoon I want to watch the football and on Sunday I'd like to do something with the children, maybe take them swimming.

A = AMY, L = LISA

- A: It's your birthday next Saturday, isn't it?
L: Yeah, but I don't really know what I want to do. Maybe I'll stay at home and have a quiet night in.
A: Don't be silly, you can't do that! I know, why don't we all go out for a meal somewhere – you, me, Martin, Ben and some of the others maybe?
L: Yeah, okay – that sounds more fun!
A: Where shall we go?
L: There's Bagatti's but we always go there. How about that new French restaurant? I can't remember its name ...
A: The French Table?
L: Let's go there. I'd really like to try it.
A: Yeah, it sounds good. I'll speak to Martin and the others and check that they can come. Then shall I phone the restaurant and book a table?
L: Yes, please, if that's okay.
A: What time? Eight, half eight?
L: Let's book it for eight, and then we can go somewhere else later.
A: Yes, good idea!

Recording 6

- 1 A: How about a coffee?
B: That sounds nice.
2 A: Shall I take your jacket?
B: Oh, thanks.
3 A: Shall we ask for the bill?
B: Yes, good idea.

- 4 A: I'll take you home.
B: No, it's okay. I'll call a taxi.
5 A: Why don't we go to the cinema?
B: Yeah, that's a good idea.
6 A: Let's have another drink.
B: I'm okay, thanks.
7 A: Shall I call you tomorrow?
B: Yeah, okay.
8 A: Why don't we meet at the station?
B: That sounds fine.
9 A: I'll book the tickets.
B: Great.

J = JULIE, R = ROB, S = SARAH

- J: Do you two still want to go away for the weekend – you know, on the 22nd?
R: Yeah, definitely.
S: Yeah, I want to ...
J: Because we talked about the Isle of Wight, do you remember?
R: Oh, yes. I'd love to go there. People say it's a really good place for walking, really good cliff walks.
S: Mmm, it's just that I went there last summer and the summer before. I'd like to try somewhere different ... a city maybe.
R: Yeah, I can understand that.
J: How about Canterbury? The city's lovely and it's not too far ... and we can visit Leeds Castle, too. I'd really like to see Leeds Castle, it looks so beautiful in photos.
S: Yeah, but we can do all that in one day from London – we don't need a weekend.
R: Yeah, you're right, and it's not a great place for walking, if we want to walk ...
J: I've got a much better idea! Why don't we go to Dublin for the weekend? I read something about it in the newspaper the other day. You can get really cheap flights, and there's something for all of us ...
S: Yeah?
J: Yeah, there are lots of things to see; the castle, the river, Trinity College and things. And it's got really good shops and bars, so there's plenty to do in the evening.
S: It sounds great to me. I love shopping and we all like going out!
J: And you're near the Wicklow Mountains so you can go walking for the day on Sunday, Rob, if you want to.
R: Perfect, well let's go to Dublin then.
S: So ... we fly there on the Friday evening after work about what? Six o'clock?
J: Yeah, and then we can come back on Sunday evening about the same time, six o'clock?
R: Yeah, six is good for me. Where are we going to stay – in a hotel?
J: The newspaper article said that B&Bs are really good in Dublin, and they're cheaper than a hotel.
S: Fine. Well, shall we find a B&B then? I'll do that if you like.
J: Okay, and shall I check the times of the flights?
R: Great ... perfect!

Thailand

I = INTERVIEWER, S = SUMALEE

- I: So what's the weather like in Thailand, exactly?
 S: Well basically, Thailand has three seasons every year. The cool season isn't really cold, just cooler. It's from November to February. Then the hot season is in April and May and the rainy season is from June to October.
 I: And does it rain all day in the rainy season?
 S: No, no. It rains really heavily, but usually it only lasts for about two hours!
 I: So what kind of temperatures do you have?
 S: Well in my city, Bangkok, the hottest days in April are about thirty-five degrees, so it's really hot in April, and the coldest in December are about seventeen degrees.
 I: So it's never very cold?
 S: No, it's never cold.

Canada

I = INTERVIEWER, C = CATHY

- I: So is it true that it's always cold in Canada?
 C: That's what everyone thinks, but it's not really true. In the Yukon Territory in the north, it's really cold. There's snow there for maybe eight months of the year but in my city Vancouver, on the west coast, it's completely different.
 I: So what are the winters like in Vancouver?
 C: Most days it's cloudy, I guess, and it can be quite wet, but it isn't really cold.
 I: And do you have nice summers?
 C: Yeah, the summers are good, it's usually sunny and warm. I guess the average temperature is about 18 degrees, so that's fine!

Will I was always very bad at school. I failed all my exams, and I left secondary school at the age of 16. I'm really sorry I didn't work harder at school. I worked as a van driver for a few years. Then I went to college to get some qualifications. I did a course in information technology. I studied in the evenings after work: for the first time I really enjoyed going to class. I took my exams again and this time I passed! It shows that it's never too late to learn. Now I've got my own computer sales company!

Vicki Before I had children I worked for a big financial company – it was a good job and I earned quite a lot of money, but I worked long hours and there was a lot of travelling abroad. So when my two children were born I stopped work for a few years to look after them. Now they're at school and so I'm training to be a maths teacher – maths was my favourite subject at school. It's a really good job for me because I'll have holidays at the same time as my children.

Francine Languages were always my favourite subjects at school. When I was at primary school they taught us French from the age of eight. I found the lessons interesting, and I soon found that I was good at learning languages, so then I started learning Spanish as well. Now I'm at university. Next year I'm going to Lisbon to study Portuguese. When I graduate, I'd like to look for a job where I can use my languages, in an international company maybe.

Josh I'd really like to be a journalist when I leave school, but it's a very difficult career to get into, so everyone tells me. I want to study history and politics when I go to university, because I think

they'll help me with my career, and I'm also helping to write the school magazine, to get some experience of journalism.

Taka I'd really like to do the course in performing arts, because I'm very interested in dance, but I have to think about my career. I work as a fashion designer and will need to use a computer to design clothes, so I'm going to do the Information technology course. I can study dance and photography in my free time.

Oliver I really like the idea of the performing arts course. I'm in a rock band and I love drama and music, but my parents don't like that idea at all, they don't think it's very useful for my career. They want me to do the information technology course, but I already know a lot about computers and I don't want to spend my life working with computers. So I've decided to do the leisure and tourism course because travelling is quite interesting, and it makes Mum and Dad happy because it's a 'real job'!

Gaby I really liked the idea of the Sports studies course – it looks great – working with people and doing something I enjoy, but if I do the part-time course it's just so long! Four years studying three evenings a week – it's too much. I looked at the childcare course too, but it's working with really small children, and I prefer older children. I don't really know much about small children. So in the end I didn't choose any of these courses. I'm going to look for another sports studies course at a different college, because I want to try to find something shorter.

Recording 1

- a **Matt** I've spent about thirty hours on the Internet so far this week. I'm really into it. I usually go on about 9.00 in the evening after dinner and things, and I probably stay on until about one, two in the morning. The rest of my family are all in bed, but I can't sleep until really late.
- b **Josie** I haven't watched any TV so far this week – I don't own a television. I hate television – it's really bad for you.
- c **Richard** I've had three computers in my life so far. The first one was really funny – it was a little box with a really small screen. It didn't have e-mail or the Internet or anything – but it was the most expensive of all my computers!
- d **Belinda** I haven't written any letters so far this year, I don't think ... no, I don't think so. Nobody writes letters these days, do they? I always send e-mails, or cards if it's a birthday or something personal.
- e **Jessica** I don't know how many books I've read so far this year ... too many to count. I've read five books this week so far. I usually read about seven or eight in a week. I love reading. If I really like a book, I might read it five or six times.

Recording 3

A: OK, 'bye.

J: Hello, is that Julia Thompson?
B: Speaking.
J: Hello, this is Jane Hancock, I'm calling about the flight tickets.
B: Oh, right, yes.
J: For Copenhagen? Are they ready yet?
B: Yes, well unfortunately there's a bit of a problem ...

Conversation 3

- AM: Hello, this is Tania Shaw. Sorry, I'm not here at the moment.
Please leave a message after the tone: BEEP.
J: Hi, it's Jane here. Can you call me back? It's about the flight tickets. My number is 890921. Talk to you soon. Bye!

Conversation 4

J: Hello, Mum, it's me. Is Dad there?
M: He's asleep in front of the television. Shall I wake him up?
J: No, it's okay. Can you ask him to call me?
M: Yes, of course. Is everything okay?
J: Oh yes, I'm fine. I've just got to do all these things before Saturday.

- 1 **Fabrizio from Venice** Of course, there's lots to see in Venice. It's one of the most famous cities in the world. First of all, there are the canals. We don't have cars in Venice so you have to travel everywhere by canal. The most famous place in Venice is the square, St Mark's Square with St Mark's Cathedral. And there are lots of museums and palaces, and beautiful bridges, too.
- 2 **Yumi from Kyoto** For me, Kyoto is the most beautiful city in Japan. It's also the oldest city. It has many old traditional buildings and beautiful palaces, temples and gardens. The most famous temple is the Golden Pavilion. There are also very good markets, and also really good shops, and some beautiful modern buildings, too.
- 3 **Murat from Istanbul** I think Istanbul is maybe the most beautiful city in the world, but of course I come from Istanbul! The city is built on hills around the Bosphorus, and so there are beautiful views across the water. From the water you can see mosques – the most famous is called the Blue Mosque – and palaces and bridges. Istanbul also has a very famous market called the Grand Bazaar. But these days we also have many modern shopping centres and modern buildings and hotels. It's really a fantastic city.
- 4 **Claudia from Rio de Janeiro** Rio is one of the most exciting cities in South America ... first of course we have our famous beach, the Copacabana, and there are many mountains round Rio – the most famous is the Sugar Plum Mountain, where you can see a big statue of Christ, and of course we have our famous stadium ... the Maracanã stadium, maybe the most famous football stadium in the world ... it's really a great place.

- 5 **Marina from St Petersburg** You will really love St Petersburg there are so many things to see. The most famous is the Winter Palace, where the Tsars lived, and the Hermitage Museum which is a fantastic art gallery, and we have a very beautiful river too, the River Neva, and of course churches and cathedrals. There is so much to see!
